

# NIKHILA NAIDU

## FRONT-END DEVELOPER

Full name	Nikhila Naidu Kaparapu	Address	Vizag, Andhra Pradesh
Email	nikhilanaidu.kaparapu@gmail.com	Phone	+919398614418
Blog	<a href="#">nikhila.dev</a>	Main Project	<a href="#">contentql.io</a>

### WORK

10/2022 -  
PRESENT

#### **ContentQL.io(Start-up).**

After my business trials, I started learning the MERN stack, and I started working on my portfolio and contentql there; I have displayed everything I have learned so far.

11/2022 -  
03/2023

#### **My Portfolio**

After spending most of my time on personal projects using HTML, CSS and JS, I created my portfolio with the help of some other tools like ReactJS and NextJs, where I have spent most of my time and learned in multiple ways.

02/2022 -  
10/2022

#### **Personal Projects**

projects created while learning web technologies

- Todo App
- Birthday Remainder
- Tours

### EDUCATION & CERTIFICATIONS

#### **HackerRank Certifications**

Certificates after the completion of required assignments and exams.

[Javascript](#)

[ReactJS](#)

#### **Bachelor of Dental surgery**

GITAM Dental College and Hospital, Visakhapatnam

I'm a Dental graduate. During my Internship, I thought of learning about dental coding. During the process knowing about programming made me feel excited to learn about basic programming languages like HTML, CSS and JS, and I quickly learned the necessary traits required to become a full-stack developer.

### SKILLS

- Javascript
- ReactJS.
- NextJS
- TypeScript
- NodeJS
- MongoDB
- REST API
- GraphQL API

Modern JS with ES6 Syntax

With the addition of ReactJS skills, I became a web developer

With better routing and server side render makes my work better best developer experience. enables to type safety to my projects

Node JS is my preferred backend

All of the projects and work are related to MongoDB & Mongoose

NodesJS + Express is my go-to option for creating a REST APIs

I reply on tools like Hasura for GraphQL
